Tour Bag

From utility tools to “Dual-Zone” sunglasses, the items found inside a Tour pro’s bag are top of the line. It’s easy to see why, when you consider that one stroke can make the difference between first and second place. Besides, pros aren’t lugging their bags from tee to green, so how much they weigh isn’t an issue. To these “sticks,” it’s the paycheck that they want to be heavy. Really heavy.

1. 1st Tee Bars (\$2.50) give players the quick, healthy boost they need. www.golfenergybar.com

2. Zero Friction Tees (\$5) have a small indentation on the top that minimizes restriction and adds distance.

3. A GustBuster Umbrella (\$60) doesn’t just keep you dry; it blocks out some serious wind. www.gustbuster.com

4. Peak Vision Edge 3343 Sunglasses (\$169) add clarity to green reading. www.peakvisionsports.com

5. The Q-Ray Combo Deluxe Ionized Bracelet® (\$160) has been a staple on Tour for more than a decade. www.qray.com

6. The Mizuno Tour Towels (\$15), a 100% cotton velour mammoth, will clean every club in the bag. www.mizunousa.com

7. Champ Scorpion Spikes (\$12) provide plenty of stability and support. www.champspikes.com

8. The Ping Trucker’s Hat (\$20) has a mesh back that keeps you feeling cool. www.ping.com

9. The Leatherman Squirt (\$44) cuts old grips fast. www.leatherman.com
